Subject: Endosulfan tech support need

Hi Dave – Emily Snyder called me. I understand you would like some technical advice on endosulfan. NHSRC is not best situated to support you on this topic - this is best accomplished through ORD's NCEA toxicologists.

As you know, I (and Eric Koglin on my staff) facilitate ORD technical support during emergency response (our "RACER" capability). Eric will be in touch with you ASAP to understand what you need and he will facilitate the ORD support promptly so you get what you need ASAP.

Thanks,
Greg
